Emily (It's Love)

Mountain Faith

Emily, I know you think it won't get any better.
Life has gone and gotten so tough.
Emily, you believe you will never
Ever find that you're enough.

Circumstances can change your mind,
But time will help you see -

It's love that hung the moon and stars for you above,
And stays awake to start the morning.
If you feel you've had enough,
He's never given up
It's love.

Emily, you will see some stormy weather,
Dark and cloudy days of rain.
But Emily, there will be some summer laughter:
'Cuz everybody knows the seasons change.

Circumstances will turn out fine,
And time will help you see -

It's love that hung the moon and stars for you above,
And stays awake to start the morning.
If you feel you've had enough,
He's never given up
It's love.

Can't you see...
I know you believe me;
Everything is whispering this well-known story.
So listen in;
It's humbling:
All of this done for you.
It's love.

It's love that hung the moon and stars for you above,
And stays awake to start the morning.
If you feel you've had enough,
He's never given up - no,

If you feel you've had enough,
He's never given up -
It's love.
Love.
