

# Like I Do (feat. GoldLink)

## Christina Aguilera

(GoldLink)

Right, never gets heavy  
Talk to the reverend  
But I know you better  
And I'm tryna  
Hey, you know we perfect  
Babygirl, look at us  
Make a young  
Cash out that running  
All that little booty in your trunk  
Make a man wanna say hallelujah  
When they jump  
Make'em buy a little Porsche  
I'm around you so we stunt  
Black men, black car  
Let you buy you what you want  
No, wait, baby you a problem  
Saggitarius, hm, exciting  
Link and Aguilera, so you know we're gossip  
Coexisting, you the moon, I'm the sun  
Genie in my bottle  
I'm trying to rub on your hips  
Ain't no other man who can talk to you like I did  
That's real  
Let's start a family  
I'm Uncle Phil  
You my Aunt Viv  
Fly to Spain  
Go to Rome

We don't ever have to ever go home  
I want to love you from your head to your toe  
I like a little fuss and fightin' when I go  
You say leave, tell me stay, want me go  
Then I leave, pouting like I'm gone  
But you know I never leave you on your own  
And you're too bad for these brothers who be on your phone like

(Christina)

Let me make this simple for ya  
Lay it out on the table for ya

In case you need a little reminder  
I've been doing this way before you  
Boy you already know my story  
You were raised in all my glory I don't need your little money  
I can put you on to something  
Stop talking, we can get along  
We can Marvin Gaye and get it on  
Where you want to be, I've been before  
Shh, say no more  
Boy, you're so much better when you don't speak  
If you get somethin' get one thing  
Can't play me, boy, I'm out of your league No, baby, you can't do it quite like I do  
I do  
Like I do  
I may not want but just might have to show you  
Show you  
What I do  
And you can't do it quite like I do This feeling is legendary  
Welcome to my sanctuary  
Every time like the first time  
But, baby, girls like me ain't temporary  
Can't fake it when it comes this natural  
I ain't ever tried, it's just natural, ha I don't need your little money  
I can put you on to something  
Stop talking, we can get along  
We can Marvin Gaye and get it on  
Where you want to be, I've been before  
Shh, say no more  
Boy, you're so much better when you don't speak (When you don't speak)  
If you get somethin' get one thing (Get one thing)

Don't you second guess it  
Just show some respect and  
It can go far for you  
I know it's kind of hard for you  
It's not my job but you're working so hard  
I can share a bar or two  
Plus you're kinda cute Stop talking, we can get along  
We can Marvin Gaye and get it on
