Gangsta Love

Junebug Slim

Gangsta love...

Girl:
You are everything
And everything is you
Baby you are everything and that's why I love you

Boys:
You are my everything
My gangster love
My sexy mamacita you're my only one.

Yo what's crackin lil mama recognize the flow
I had you on my mind since the jam was slow
Still remember those days we were sittin in the park
Huggin n kissin till way after dark
Sexy full lips and light brown eyes
The way you got me sprung got your boy hypnotized
And ooh girl I like your style a bad mamacita standing in the crowd
No one can take your place when we're face to face
You're shotgun in my caddy as we mobbin to the bass
Your my rida baby n that's the truth you'll always be everything always down for JBOY!

Girl:
You are everything
And everything is you
Baby you are everything and that's why I love you

Boy:
You are my everything
My gangster love
My sexy mamacita you're my only one.

Let me get some time alone got you on the other end of the phone your sexy voice telling me you'll be right over
Let me take my time with you
Your perfume is an aphrodisiac how could I not
React to it I was on it since the eye to eye contact (how you doing)
My first words to you as soon as you walked into the room
