Resolution

Darius

You see I wear myself just as I please
I don't have my nerves sewn on my sleeves
As I walk this path the street is unknown
But I'm afraid to ask can I do this alone

I can't do what I want
That's what I choose
I can't see what I want
I've got nothing to lose

I believe in a life
Where nobody rules
Yeah, I can't do what I want
But I can't do without you

Some might say that I find it hard to let go
And I fool myself, God only knows
There's a lot to be said, a lot to be said
For spending the time without you in my head
But you're there in my mind

I can't do what I want
That's what I choose
I can't say what I want
With nothing to lose

I believe in a life
Where nobody rules
Yet I can't do what I want
But I can't do without you

I believed so blindly
The brown grass was green
I was a fool

How can it be
When I'm turning back I see you
I'm really seeing me

You see I wear myself just as I please

I don't have my nerves sewn on my sleeves

I can't do what I want
That's what I choose
I can't say what I want
With nothing to lose

I believe in a life
In a life where nobody rules
Yet I can't do what I want
But I can't do without you

I can't do without you
I can't do without you
I can't do without you
Without you

I can't do without you
And I can't do without you
Don't want to feel without you
And I can't do without you
Don't want to feel without you
