

# Autumn Rain

## Day One

Look around  
Look around, look around  
Is there something I'm missing here?  
Is there something I should know? And just listen to the sound  
All around there's people living their lives  
People passing by  
As I catch their eye It doesn't matter where you're from  
'Cause wherever you are from  
You got a long walk home  
You got a long walk on And I've walked for many years  
And I've never shed a tear  
For a place called home  
'Cause in this place I roam... Everyone's the same  
When you're walking in the autumn rain  
Walking in the autumn rain When you're walking from your past  
You can never walk too fast  
Think you got away at last  
Think you got away at last And we all have to live with our mistakes  
But what would it take  
To make things right  
To feel good inside? It doesn't matter what you've done  
'Cause whatever you've done  
Life has to go on  
Life has to go on, yeah And my conscience is always clear every time I am here  
Because there is no blame  
When you're walking  
In the autumn rain  
In the autumn rain

Songwriters

HARDWIDGE, MATTHEW / BYRNE, PHELI
