## Pursuit Grooves

Many have traveled this road before  
I see their tracks in the dirt  
But maybe I dont agree  
With where they are leading And who am I, just a youth  
But why has that become the excuse  
A monotone voice  
In my head saying "Dreaming all the time, its so foolish  
Your flood of empty words will drown you in ruin"  
So we listen  
Should we listen? They shake their heads  
As they drive away in the bandwagon  
Didn't feel like hitching a ride  
Oh, but Ill be fine Some nights, its hard to be alone  
I want some kind of kinship  
But the finish line  
It drives me on when they say "Dreaming all the time, its so foolish  
Your flood of empty words will drown you in ruin  
So we listen"  
Should we listen? Come with me, theyll call us revolutionaries  
Come with me, theyll call us revolutionaries  
Revolutionaries  
Revolutionaries Dreaming all the time, its not foolish  
Your flood of life giving words  
They will refresh, they will refresh Dreaming all the time, its not foolish  
Your flood of life giving words  
They will refresh  
Should we listen?  
Revolutionaries
