Sleepwalker

Alien Ant Farm

This repercussion's messing with your ghost
I feel you through the air now
Wish I could tell you that I miss you most
I miss you most, all the time now
[CHORUS]Sleepwalker miss you much
I can almost feel your touch
It's killing me
And I want it
Sleepwalker miss you most
I can almost see your ghost
Scaring me and I'm haunted
You left me nothing but a broken soul
An empty hole, memories bleeding

And all our friends they say to let you go
But they don't know
You're still breathing
[2nd CHORUS]Dead or awake, you said you'd always be
Right with me
Asleep or alive you swore you'd never leave
But I can see you
[2nd CHORUS]And all our friends they say to let you go
But they don't know
You're still breathing...
