

Three Evils (embodied In Love And Shadow)

Coheed And Cambria

Across the floor in the hand of where we drove the drill
A cautious ear to the mouth of your confession
 Think of all the things we put him through
 In the face of his God would he tell the truth?
Still recorded were the words that dribbled out his kiss
When eyes go blind in this man of what could once become
 Sever the limbs off his torso in sleep
 And burn what remains so the world may now see
 No longer, will we wait for your answers
 Back to the hell where you've come from
 Think of all the times you've once had
 Write them in a letter that says goodbye
 You'll listen to reason
 While you're face down in the dirt
 You'll stomach the hurt
And break for him here just how, how much he's worth
Slowly discarded were the remains of his lonely youth
 Among the alley where the dwellers scare to notice
 Picture a young boy in pieces and streets
With leveled malfunctions no name to be called redeemer
 We'll fix him restore him
 With the love is no other
 Think of all the things you did before
 Write them in a letter that says reborn
 You'll listen to reason
 While you're face down in the dirt
 You'll stomach the hurt
And break for him here just how, how much he's worth
Following you across the interstate walking away
 I'll fire on
Following you across the interstate walking away
 I'll fire on
Following you across the interstate walking away
 I'll fire on
 On the wrong way out
 On the causeway to never where
 On the wrong way out
 On the causeway to never where
 On the wrong way out

On the causeway to never where
Dear my friends in the time we've spent
Forever after beyond this when will our nightmare ever end, end, end?
Dear my friends in the time we've spent
Forever after beyond this when will our nightmare ever end, end, end?
Pull the trigger and the nightmare stops
Pull the trigger and the nightmare stops
Pull the trigger and the nightmare stops
Forever you will, forever you will learn
Pull the trigger and the nightmare stops
Pull the trigger and the nightmare stops
Pull the trigger and the nightmare stops
Forever you will, forever you will learn
Pull the trigger and the nightmare stops
Pull the trigger and the nightmare stops
Pull the trigger and the nightmare stops
Forever you will, forever you will learn
