

They Declare It

Discharge

They have the right what fuckin' right?
To say I must fight in their fuckin' wars
They declare it!
Why should I fight in their fuckin' wars?
When they never show realities of war
They declare it!
Why should I fight in their fuckin' wars?
Why should I do their killing and be killed?
They declare it!
It s down to them there's no doubt in my mind
All they want is lots of glory
They declare it!
They! They! They declare it!
They! They! They declare it!
They! They! They declare it!
They! They! They declare it!
War! War! War!
