Rest Of Our Life

Jason Derulo

Life
La La La La Life
La La La La Life
La La La La Life
La La LifeCrazy nights we share, bottles everywhere
Drunk but we don't care, don't care
Jeans are on the floor, tipsy on the floorI still want you more, you morePut your phone away, making love today
BabyIf I ask you to stay right here with me
And never leave this bed
Yeah, pull the sheets right over it
Kiss your body, don't make plans
Baby, we can take our time
We gonna have tonight for the rest of our life
The rest of our lifeLife
La La La La Life (The rest of our life)
La La La La Life
La La La La Life
La La LifeTonight I'm your tattoo, never leaving you
Never leave this room, this room
Don't you touch your hair
No makeup, I swear you're perfect everywherePut your phone away, making love today
BabyIf I ask you to stay right here with me
And never leave this bed
Yeah, pull the sheets right over it
Kiss your body, don't make plans
Baby, we can take our time
We gonna have tonight for the rest of our life
The rest of our lifeLife
La La La La Life (The rest of our life)
La La La La Life
La La La La Life
La La LifeYou can stay the night
Right here with me
I want your love
I need your loveIf I ask you to stay right here with me
And never leave this bed
YeahIf I ask you to stay right here with me
And never leave this bed
Yeah, pull the sheets right over it

Kiss your body, don't make plans
Baby, we can take our time
We gonna have tonight for the rest of our lifeYou can stay the night
Right here with me
I want your love
I need your love
For the rest of my lifeYou can stay the night
Right here with me
I want your love
I need your love
For the rest of my lifeLife
La La La La Life
La La La La Life
La La La La Life
