

# Just a Little Girl

## Little Eva

I'm just a little girl  
But I feel a woman's love  
I'm just a little girl, but I feel a woman's love for you  
These arms of mine know how to hold you  
My lips know just what they should do  
And if you'll only let me love you  
You'll see I'm not too young for you  
I'm just a little girl  
But I feel a woman's love  
I'm just a little girl, but I feel a woman's love for you  
Now I'm not saying I'm all grown up  
There's things I still don't understand  
But I know enough about true lovin'  
To make you feel like a man
