

Still in Love

JAHKOY

It's alright, it's okay
To try and hide your feelings today
 Been around, been away
But I won't let it stay the sameI remember when you lit me up with your touch
 The fire within me
 When I'm feeling empty
 You fill me up right up baby
 You fill me up right up
I remember when you lit me up with your touch
 The fire within me
 When I'm feeling empty
 You fill me up right up, baby
You fill me up right upI guess I'm still in love, still in love
 Still in love, still in love with you
 Still in love, still in love
 Still in love, still in love with you
 Still in love, still in love
 Still in love, still in love with you
 Still in love, still in love
Still in love, still in love with youI believe in many things (i believe in, I believe in)
 All of which account to faith (i believe in you too)
 You been here on different counts (you been here on different counts)
So I'm steady counting awayI remember when you lit me up with your touch
 The fire within me
 When I'm feeling empty
 You fill me up right up baby
 You fill me up right up
I remember when you lit me up with your touch
 The fire within me
 When I'm feeling empty
 You fill me up right up, baby
You fill me up right upI guess I'm still in love, still in love
 Still in love, still in love with you
 Still in love, still in love
 Still in love, still in love with you
 Still in love, still in love
 Still in love, still in love with you
 Still in love, still in love
Still in love, still in love with youI

Still in love, still in love with you
I, I, I
Still in love, still in love with you
I, still in love, still in love with you
I, still in love, still in love with you
I still in love, still in love with you
I still in love, still in love with you oh oh oh
Yeah just saying I really want you babeI remember when you lit me up with your touch
The fire within me
When I'm feeling empty
You fill me up right up baby
You fill me up right up
I remember when you lit me up with your touch
The fire within me
When I'm feeling empty
You fill me up right up, baby
You fill me up right upI guess I'm Still in love, still in love
Still in love, still in love with you
Still in love, still in love
Still in love, still in love with you
Still in love, still in love
Still in love, still in love with you
Still in love, still in love
Still in love, still in love with youCan't let it get to me
Oh no, lord knows
The way I let it get to me
Saying I
Want you baby
Just saying I really Want you baby
'Cause I remember when you
Lit me up with your touch
I remember when you
Lit me up with your touch
So yeah
I, I, I, I, I, I, I
