

# There Was Another Time In My Life

**Relient K**

I know that I've come a long way  
My heart's headed in the right place  
But sometimes your past's hard to face  
But now I know you  
There was another time in my life  
There was another time in my life  
Oh, there was another time in my life  
Before I knew you  
I sailed through the high winds and waves  
I wondered if I could be saved  
But I have emerged unscathed  
Because I know you  
There was another time in my life  
There was another time in my life  
Oh, there was another time in my life  
Before I knew you, before I knew you  
Before I could see  
That you could take all of my troubles from me  
Before I knew  
I was so incomplete  
There was another time in my life  
There was another time in my life  
Oh, there was another time in my life  
Before I knew you  
There was another time in my life  
There was another time in my life  
There was another time in my life  
Oh, there was another time in my life  
Before I knew you  
I was so incomplete
