Garmonbozia

Superdrag

Somebody screams and I'm gushing my load, everyone knows the score
Dropped from a dream I don't know what I know, getting my feet to the floorI'm tired of dying here alone but you can set me free
I'm wired and lying here too stoned to know what I could beDropped from a dream with a head full of love, nowhere to give it away
One magazine and a head full of love, hate every beautiful dayI'm tired of dying here alone but you can set me free
I'm wired and lying here too stoned to know what I could be
