

Secret Spell

[Tori Amos](#)

In one hand dreams a plenty, in her smile a secret spell
There have been disappointments
These she knows all too well
And you losing you was not a part of this plan so
Just turn you around for
Eighteen wheels in a high heel
Just turn you around
Sold a dream at twenty three
Turn you around, hold out
You still got your secret spell
At the heart of the matter
Someone wove a secret spell
Mixed with girl not so peaceful, angel and animal
But me losing you was not a part of this plan so
Just turn you around for
Eighteen wheels in a high heel
Just turn you around
Sold a dream at twenty three
Turn you around, hold out
You still got your secret spell, a secret spell
Girl you got to do a 180
And disappointment you know it well
But you losing you was not a part of this plan so
Just turn you around for
Eighteen wheels in a high heel
Just turn you around
Sold a dream at twenty three
Turn you around, hold out, hold out
You still got that secret spell, a secret spell
Girl you got to do a 180
'Cause you still got your secret spell
