

Good Enough

Operator

You say you lived, Were you good enough to live again?
Day of the dead, Were you good enough to ressurect?
You use your friends, Were they good enough to use again?
Its all been said , was it good enough? Im sure it was..

Sever off the strings you used to hold us up
Straighten out my broken fingers im crawling out
The walls you hold around me keep on falling down
And everything is good enough like it was..

We all need love, Is it good enough for everyone?
But when were done, Is it good it enough? Im sure it was..

Sever off the strings you used to hold us up
Straighten out my broken fingers Im crawling out
The walls you hold around me keep on fallin down
The sweetest lies you told me are just rotten now
And everything is good enough like it was
