

Soluble Words

Ken Andrews

What did you say?
I heard soluble words
They fell out of your face
Then fell back to earth
Inaudible sounds
Get carried away
I know your game you've got nothing to say

Is there something you can tell me
That could make me hear the call
Everything I've heard you say is
Sleepier than seconal
How can pretend to think
That what you say is meaningful
Everytime I look inside there's nothing but an empty hole

What did you say?
I heard questionable sounds
They dropped out of your mouth
Then fell to the ground
What are you fighting for?
What could it be?
I don't know but
I don't think you mind all the extra money

Is there something you can tell me
That could make me hear the call
Everything I've heard you say is
Sleepier than seconal
How can pretend to think
That what you say is meaningful
Everytime I look inside there's nothing but an empty hole

What did you say
I heard questionable sounds
They dropped out of your mouth
Then fell to the ground

Is there something you can tell me
That could make me hear the call

Everything I've heard you say is
Sleepier than seconal
How can pretend to think
That what you say is meaningful
Everytime I look inside there's nothing but an empty hole (repeat)

An empty hole

I can't afford o let you down
There's nothing here but broken sounds
I'll leave the tape beside your door
On my way home (repeat)
