

# Start Raising Hell

## Thor

It's the start of round one,  
I come out fighting  
the fury of the sound  
Let bloodlust strike me  
They call me a Savage Beast  
I'm pumped for the second round  
Let them all gnash their teeth  
I'll destroy this town We're gonna start raising hell  
We're gonna start raising hell  
We're gonna start raising hell  
raising hell  
Go and load the truck, you evil lackies  
All things must run amok  
My Whip will be cracking  
Visions of the Earth, the Sky will fall  
and the Seas will quake  
Let them feel my Wrath  
It's a thought that they can't take We're gonna start raising hell  
We're gonna start raising hell  
We're gonna start raising hell  
raising hell So starts Round three  
I Come out fighting  
What will be, will be  
Let Thunder strike thee  
Visions of the Earth, the Sky will fall  
and the Seas will quake  
Let them feel my Wrath  
It's a thought that they can't take  
We're gonna start raising hell  
We're gonna start raising hell  
We're gonna start raising hell  
raising hell We're gonna start raising hell  
We're gonna start raising hell  
We're gonna start raising hell  
raising hell
