

Damaged

Fear Factory

Consequences that had left me for dead
Repercussions that went straight to your head
Trusting in no one, believing in nothing
Living in a world of pure deception
So far this life is contemptuous
This mind, a gun, so relentless
Damn!
I am damaged for life
Damn!
Like I've been crucified
Damn!
I am damaged for life
And I can't believe I'm alive
Determined to destroy all that you know
Conceal your lies in the web you compose
Trusting in no one, believing in nothing
Living in a world of pure deception
So far this life is contemptuous
This mind, a gun, so relentless
Damn!
I am damaged for life
Damn!
Like I've been crucified
Damn!
I am damaged for life
Damn!
And I can't believe I'm alive
Alive
So far this life is contemptuous
This mind, a gun, so relentless
Damn!
I am damaged for life
Damn!
Like I've been crucified
Damn!
I am damaged for life
Damn!
And I can't believe I'm alive
And I can't believe I'm alive

And I can't believe I'm alive
