

# Bumble Bees

## The Murmurs

I know I'm not the only flower you see  
But what can I do, you are a good looking bee  
Wham bam, thank you mam  
Oh bumble bee, bump into me  
I am in for pollination  
Bumble bee, take what you see  
I'm in need for your donation  
I can't wait for your invasion  
Be my love  
'Cause I'm a single flower, feeling free  
Blooming now  
Take me honey, be my favorite bee  
Hey Rose I'm ready again  
I got my radar tuned in on you baby  
I'm all set and ready to land  
I'm the bum, here I come  
Getting ready for a wham bam  
Bumble bee, bump into me  
I am in for pollination  
Bumble bee, take what you see  
I'm in need for your donation  
You don't need no invitation  
Wham bam, thank you mam  
I'm going wham bam, thank you mam  
I'm a true believer, that goes for what I see  
And one little flower is not enough for a bee, like me  
All I know  
Is you're my honey and I can't say no  
Just a little bit shy  
And so excited when I see you fly  
Hey Rose I'm ready again  
  
I got my radar tuned in on you baby  
I'm all set and ready to land  
I'm the bum, here I come  
Getting ready for a wham bam  
Bumble bee, bump into me  
I am in for pollination  
Bumble bee, take what you see

I'm in need for your donation  
You don't need no invitation  
Wham bam, thank you mam  
I'm going wham bam, thank you mam  
I'm a true believer, that goes for what I see  
And one little flower is not enough for a bee  
No, one little flower is not enough for a bee, like me  
I know I'm not the only flower you see  
But what can I do, you are a good looking bee  
Honey, it's a job, it's a dream come true  
You're my favourite flower, when I'm intimate with you  
Wham bam, thank you mam  
I'm going wham bam, thank you mam  
I'm going wham bam, thank you mam  
I'm a true believer, that goes for what I see  
And one little flower is not enough for a bee  
Going wham bam, thank you mam  
I'm going wham bam, thank you mam  
I'm a true believer, that goes for what I see  
And you my flower ain't enough for me  
You got to be faithful  
It's not fair for a bee  
You got to be faithful  
It's not fair for a bee, like me
