

Man Smart, Woman Smarter

Carpenters

Let us put man and woman together
And see which one is smarter
Some say, men but I say no
The women got the men like a puppet show Aint me, its the people they say
The men are leading the women astray
But I say, its the women today
Are smarter than the man in every way Thats right, the women are smarter
Thats right, the women are smarter A little boy sat down and cried
An old man passing asked him, why
He said, "I cant do what the big boys do"
Old man sat down and he cried too Aint me, its the people that say
The men are leading the women astray
But I say, its the women today
Are smarter than the man in every way Thats right, the women are smarter
Thats right, the women are smarter It aint me, its the people that say
The men are leading the women astray
But I say, its the women today
Are smarter than the man in every way Thats right, the women are smarter
Thats right, the women are smarter Thats right, the women are smarter
Smarter than the man in every way Thats right, the women are smarter
Thats right, the women are smarter Thats right, the women are smarter
Smarter than the man in every way Aint me, its the people that say
The men are leading the women astray
But I say, its the women today
Are smarter than the man in every way
