

Long Way To Go

Alan Jackson

Well, I drove down to the ocean
Left my heartache way behind
But the rain won't leave, and the pain won't ease
And the sun don't wanna shine So I ordered me up a killer
Found a view out across the sea
I sat down in the sand, a drink in my hand
And the glass lookin back at me I got a bug in my margarita
Seems bad, love won't leave me alone
I've got a woman I'm tryin to drink away
I've got a long, long way to go
Yeah, I've got a long, long way to go Well, I met an ol' boy from Georgia
His woman done knocked him down
I asked him how he's doin, he stared at me confused
And said, "Hey, can't you look around?" He said "The rain won't leave, and the pain won't ease
And the sun don't wanna shine
And there's somethin in the bottom of this drink I've just gotten
It don't look like a worm to me"
I got a bug in my margarita
Seems bad, love won't leave me alone
I've got a woman I'm tryin to drink away
I've got a long, long way to go
Yeah, I've got a long, long way to go So we put our drinks together, and we toasted rainy weather
And the women that had done us wrong
Then we threw back margaritas, the bugs just made it sweeter
And we both sang a happy song I got a bug in my margarita
Seems bad, love won't leave me alone
I've got a woman I'm tryin to drink away
I've got a long, long way to go Yeah, I got a bug in my margarita
Seems bad, love won't leave me alone
I've got a woman I'm tryin to drink away
I've got a long, long way to go Yeah, I got a bug in my margarita
Seems bad, love won't leave me alone
I've got a woman I'm tryin to drink away
I've got a long, long way to go
Yeah, I got a long, long way to go
