

# Don't Make Me Wait

## This World Fair

Angel eyes why do you look back  
And all this time how did you know that  
I'd be here, I'd be here, I'd be here  
In this world all aloneSo don't make me wait, honey  
Don't make me say it out loud  
Don't hesitate no honey  
Or it will all fall downAngel eyes why do you gaze  
Eveytime I loose my way  
You, find me here  
Find me here, find me hereSo don't make me wait, honey  
Don't make me say it out loud  
Don't hesitate now honey  
Or it will all fall downDon't make me wait, honey  
Don't make me say it out loud  
Don't hesitate now honey  
Or it will all fall down  
All fall downDon't make me wait, honey  
Don't make me say it out loud  
Don't hesitate now honey  
Or it will all fall down
