

# Frozen in Time

## Athenaeum

If he only left this world about a year ago  
With nothing but a widow and the kids he'll never know  
He could come back again  
But only as a younger friend and that's the way it goes  
And she wrote the book on how to fall in love  
When nothing in the world could make her fall in love  
Now she's on her hands and knees  
Riding her apologies to a God above  
Wherever we are, we're frozen in time  
There's a pathway to Heaven that we couldn't find  
Are we doomed to repeat it, this circle of life?  
Frozen in time, frozen in time  
He's got a plan to make himself complete  
To earn enough money so his family can eat  
But what makes a man a man  
If he's doing the best he can on his own two feet  
Wherever we are, we're frozen in time  
There's a pathway to Heaven that we could not find  
Are we doomed to repeat it, this circle of life?  
Frozen in time, frozen in time  
She's got a big degree in the field of life  
But she never got used to being a second wife  
Boy, she really missed the dance  
But she's gonna get a second chance in the afterlife  
Wherever we are, we're frozen in time  
There's a pathway to Heaven that we couldn't find  
But I will not repeat it, this circle of life  
Frozen in time, I'm frozen in time  
Frozen in time, frozen in time  
Frozen in time, frozen in time
