

Everything (feat. Bobby V)

Juvenile

A 100% real with everything I do
I make things happen every time I come through
And that's on everything, that's on everything
If I ain't already did it, homie, I'm about to
Haters gon' hate, I'mma make it without you
And that's on everything, that's on everything I'm like Rocky goin' up the Philly steps
Faa-daa-daa-daa-daa
To the top, nah-nah-naa-nah-nah-naa-naa
I'm sippin' shun dun until the sun done
Don't need another one but I'mma pop another one Give you my word that
I'm more gangsta than the worst of 'em
The nerve of 'em
Get credit for murders and ain't deservin' 'em Put to the curve on 'em
[Incomprehensible], pick up the [Incomprehensible]
[Incomprehensible] making it out
The magnolia before I'm serving 'em Niggas talking 'bout taking my paper
Won't be the first of 'em
Only receive these teardrops
Is the ones who getting work with 'em I put my people on it
Pay attention when I'm working 'em
Get in, make money then wanna get out
And you won't have to be hurting 'em A 100% real with everything I do
I make things happen every time I come through
And that's on everything, that's on everything
If I ain't already did it, homie, I'm about to
Haters gon' hate, I'mma make it without you
And that's on everything, that's on everything You dig
Hollin' about my business as a kid
And all of your money there
Nigga, well, I say that it is A couple a thousand ain't nothin' to me
I spend that on some kicks
And everything you've been hustling for
I lose that on a six I don't wear nothing but hot boy colors
And talk that old hot boy shit
And only hot girls out there
Still trying to get that old hot boy dick You heard of me dirty
I be up early with the pigeons
And your neighbors be up with me
To listening through the kitchen One of the pioneers

Gotta bounce sum serious
I'm the shit around here
I been out here Pull out the purple in the wheels
Diamond chains and the grills
Women see me and get the chills
Wanna hang with the real A 100% real with everything I do
I make things happen every time I come through
And that's on everything, that's on everything
If I ain't already did it, homie, I'm about to
Haters gon' hate, I'mma make it without you
And that's on everything, that's on everything They done got me back to my mojo
That's gon' be mo' dough
I ride the motorbike fast
I ride the Porsche slow Got it below low, let you folks know
I make them dope rows
That will provoke those
Cowards who scope those I got 'em so dro, I know they follow me
God bless them if they bother me
They got a problem with me
Obviously and I can understand it
'Cause they bitches be on top of me And I understand them bitches too
I'll fuck 'em probably
And they understand how a nigga
Feel about his property Make 'em understand
The consequences if they lie to me
I was raised right
And I'm the nigga that they try to be A 100% real with everything I do
I make things happen every time I come through
And that's on everything, that's on everything
If I ain't already did it, homie, I'm about to
Haters gon' hate, I'mma make it without you
And that's on everything, that's on everything
