

# Time

K. Michelle

In a perfect world  
You would never let me down  
There'd would be nothing to figure out  
In a perfect world  
We could just erase the day  
Never say the things we said  
Two things you can't get back, are words and time  
Alright Tell me how to find somebody  
Who gon be on time on time  
It's too late for you and I  
Thank God I left you right on time, on time  
Time, time  
Kissing you goodbye  
And I did it right on time  
On time In a perfect world  
You would try to prove your love  
Take me to the stars above  
In a perfect world, perfect world, perfect world  
We would put each other first  
Make it so it never hurts  
Two things you can't get back, are words and time Tell me how to find somebody  
Who gon be on time on time  
It's too late for you and I  
Thank God I left you right on time, on time  
Time, time  
Kissing you goodbye  
And I did it right on time  
On time Second hand, minute hand  
Clock is winding down, every second counts  
What's your plan? where you stay?  
Here I go again, worrying about you before me  
This time I'm a get everything that I need  
Always mad, baby, why you always mad?  
I just need a break from that tit for tat Tell me how to find somebody  
Who gon be on time on time  
It's too late for you and I  
Thank God I left you right on time, on time  
Time, time  
Kissing you goodbye

And I did it right on time  
On time
