

This Fight Is Far from Over

ZSK

Now it's time to show
That we are prepared to end this
We are here to raise our voices
For those who cannot speak

You can't stop us now
You can't stop us now
This fight is far from over
And we keep hanging in
A bloodbath in silence
Yeah, this is war
Just one way to stop this
I will show you how

Stop the killing now!
The slaughtering, the madness
We are not here to make friends
We are here to save the voiceless

This is a distress call this is not a drill!

You can't stop us now
You can't stop us now
This fight is far from over
And we keep hanging in
A bloodbath in silence
Yeah, this is war
Just one way to stop this
I will show you how
