Someone Like You

Trust Company

The voice is real for me to hear
but I cannot say that im ok
so im laying down infront of you
to work this through

I needed someone just like you
I needed you
I needed someone just like you
I needed you to stay

so ill stand by and watch you slide
but I cant hide the pain inside
so ill lay down
one more time to say I tried
then I tried then you leave
when I needed someone to stay
you were my friend

cause I need you
and I wanted you to stay

I needed someone just like you
I needed you
I needed someone just like you
I needed you to stay
