Join the Dots

The Nextmen

i join the dots and i post date this letter
so cross out my name you'd do best to forget her
collapse of synapse she can't tie her laces
learn to forgive her forget her disgraces
i join the dots and i brought shame upon you
so cross out my name as i come to seduce you
i join the dots and i cry insurrection
the river runs through it she knows my defection
expose her devises you knew all along
the girl in the mirror she'll sing you a song
i join the dots and i brought shame upon you
so cross out my name as i come to seduce you
i become you
i join the dots and this river below me
for i am the rain and i'm running down country
reach out on a limb and i touched severed vein
her breath in the mirror i'll cross out my name
