

Wickedest Man Alive (feat. Queen Latifah)

Naughty By Nature

[Queen Latifah]

Mercifully mercifully mercifully massacre Naughty By Nature
Through it ever time comin at a dance
My man Treacherous MC go on let the saxophone man play a little
Make it lovely[Treach]
You got beef well what we do talk to the bunny sunny
He's the man Bugs the thug wit the money
Funny that you should mention as my family they covered
Wassup to my cousins and my sisters and my Warner Brothers
Birds of a feather, flap and fold and be together
No matter what your whatever, endeavor, find us better
You mean he, she, them, him, those and others
Let's kill two ducks in one, pluck, initiate the trouble
For those who disagree, I maybe feel the need to front it
Show me your whole entire crew, two shoes and I'ma run it
Do you want it? Maybe so, but just know, we're rolling spreads
You claim you want it but you need it just about as much as a hole in ya head
This is a flow-er show, a product float a while ago
With a new swing, I think so, bring it, sing it, act like you know
And if ya don't, you won't by the time this track is done
Queen Latifah the sire, give em some, come[Chorus: Queen Latifah]
Every time they coming at the dance, what you know
It's time for rum, man, yeah man
Every time they coming at the dance, what you know
It's for jamming, g'yeah know?
Every time they come, you know they come without the flow
Soon we have a single, they're the quickest out the door
The wickedest man, the wickedest man in dance hall, well ya know
I'm out for rum, come![Treach]
118th Street keeps production, conjunction junction nothin
Huh, what's your function?
I don't mean to be blunt or front, true or rude
How can he diss? Your honey dip looks like a honey dude
So keep it to yourself, greedy when you're in good health
So before you come and try the Treach, try yourself
'cause I ain't having it, remember act like you know
And if ya can't act jack, you best find the door
I hate to think a trade, I slot another, see ya gator
A stam yada, peace!, sasalama, lick em later

Yeah, you don't have a chance, but I see ya next
This track is KayGee's baby and he named it "Def"
I'm smoking in em, it's like chimneys, I ain't friendly
Fuck your fendy, I'm swinging for your diet kidney
Pimples are simple to pop, I want temple's op
Then slop your rock wit more flopping than a waffle spot
The wickedest man alive, I am what I am and I'm
Damn good to be a no good, hooded by
The wiggle in the middle, simple to party thumps
They call me the wickedest man alive, make em jump[Chorus][Treach]
Getting it and hitting wit it a old fashion weapon when you're slipping, I got time
Try to stand and get rammed like a Stop sign
The bad just got worse within one verse
Put the shitty verse and reverse and this fella's first
Wrecking is second, so back with ya wacked disc
For candle after candle and still couldn't wax this
I be the wickedest while you're still the wackest
I need wallpaper to list what your track miss
This is a double decker from the head wrecker, neck and head checker
Check the check and who's def? Who's left ya?
Standing back canning ya, plan ta stay back
I'm down wit Kay's tracks, black, this is the payback, lay back, jack
I have you every which way but loose, blowing your sound proof
That's happening to me, your thanks for giving a neck noose
This comes naturally, all day and night
I make a party of all lefty's leave screaming out "Alright!"
Talking bout needing a lot more work than you had
Twelve years, twelve hundred, twelve inches and sold one
Who's getting done? Who's swifter? Who's badder?
You be able to get down wit some help in a step ladder
This is another song, we check out the style that I've
Picked and rip, I be the wickedest man alive[Queen Latifah]
No rude bwoy, come test the sound of Treacherous MC
Massacre Naughty By Nature, crew come flec, man, eaze up
