Dusty Trails

Lucius

We've been gone for such a long time that I'm almost afraid to go home
A long road is a long dragged out imagination where things can go wrong
But we keep rolling on
I know i'm no doctor but if I was guessing I'd say it was just growing painsPainful as growing is we can't forget it's our ticket to taking a risk
And we'll all be ok
We'll be ok
Dusty trails can lead you to a golden road I've been toldCan't remember who it was all she spoke
With a penny for her thoughts leave me broke
Cause everyone's around and I'm still alone
Everyone's around right now and I'm still aloneIt's all a manual that we've been writing a future instructional guide
If we skipped ahead to our pre-fulfilled dreams we'd be lost without our own advice
We'll be alright
We'll be alrightDusty trails can lead you to a golden road I've been told
Can't remember who it was all he spoke
With a penny for his thoughts leave me broke
Cause everyone's around and I'm still aloneEveryone's around right now and I'm still alone
I'm half way to misery
Some say when you go half way there's still plenty of time to return
Oh am I half way to heaven hereSome may say when you go half way you only have half way to go
Dusty trails can lead you to a golden road I've been told
Can't remember who it was all he spoke
With a penny for his thoughts leave me brokeCause everyone's around and I'm still alone
Everyone's around right now and I'm still alone
