Turbonegro Must Be Destroyed

Turbonegro

I heard they maybe just ate a baby
That makes sense to me
But I doubt it. I won't allow it
Because I run the scene
They always fake it. too bad they made it
It's not a problem to me
They're really smart but they ain't got no heart
They make my asshole bleedSo very negative
They only take and they never give
I scream into the night
Turbonegro must be destroyedThey are nothing, I'm for real
But I heard they had some cat killed
I heard they run the media
Tearing down what others build
I deserve some respect for my class and my intellect
Why can't they be my friends
This deathpunk torture will never endSo very negative
They only take and they never give
I scream into the night
Turbonegro must be destroyedSomebody stop them pleaseSo very negative
They only take and they never give
I scream into the night
Turbonegro must be destroyed
