

Be the Beach

Kaleb King

Summer time in the beach town
I was falling love as the sun went down
But watching you all afternoon
I get that feeling your feeling in too

Got ya hair pulled back
Ya walking out the water
Slow motion
All eyes on her
Sun shines a shoreline chambers
Baby don't move I gotta take a picture
Tan lines on the white sand
Ya red lips on a beer can
Your away breaking hearts and you'll break them till the summer time is through
I just wanna be the beach that you crash into

Sunsets sitting next to you
You got them pretty blue eyes I wanna dive into
The sun gone now we're under the stars
Still can't believe that your in my arms but

got ya hair pulled back
Ya walking out the water
Slow motion
All eyes on her
Sunshine so shoreline chambers
Baby don't move I gotta take a picture
tan lines on the white sand
Ya red lips on a beer can
Your away breaking hearts and you'll break them till the summer time is through
I just wanna be the beach that ya crashing into

And all I wanna do right now is make this moment last
Cuz u and me underneath the sun and moon
In the sand
Cause summertime's gone too fast

Got ya hair pulled back
Ya walking out the water
Slow motion

All eyes on her
Sunshine so shore line chambers
Baby don't move I gotta take a picture
