

# Devil's Road

## Hughes Turner Project

I got my posi-traction, I'm hell on wheels  
I'm made of iron blood and steel, yeah  
I'm always set for action, I'm shifting gears  
I'm running faster than my fears I'm leaving everything behind me  
I'm on a race with destiny  
I'm going where my dreams can find me  
Somewhere I can be free, I can be free I can see heaven, it's a long way to go  
And I'm riding the devil's road  
I can hear angels singing, lifting my soul  
But I'm riding the devil's road I'm hiring a locomotive, I'm right on track  
I've come so far, I can't go back  
I got my higher power, he come to me on the seventh hour  
Never burn my ivory tower, now I have been set free I'm leaving everything behind me  
I'm on a race with destiny, yeah, yeah  
I'm going where my dreams can find me  
Somewhere I can be free, I can be free I can see heaven, it's a long way to go  
And I'm riding the devil's road  
I can hear angels singing, lifting my soul  
But I'm riding the devil's road  
And I'm riding the devil's road I can see heaven, it's a long way to go  
And I'm riding the devil's road  
I can hear angels singing, lifting my soul  
But I'm riding the devil's road Yes I'm riding  
And I'm riding the devil's road, ohh, riding  
But I'm riding the devil's road
