

I'm a Vagabond

Andrew W.K.

So you've come to analyze me
And tell me where I belong
But don't you put your finger on me
I'm a vagabond So you've come to criticize me
Before I have to move on
But don't you put your finger on me
I'm a vagabond You even tried to hypnotize me
Until the cold morning dawn
But you can't put your finger on me
I'm a vagabond So now you've come to apologize
But I am already gone
And you can't put your finger on me
I'm a vagabond
