Last Summer

Busted

When I saw you girl
All alone
It made me stare
You held me captivated
And your wondering, across the street
Then you sucked me in
I couldnt stay away from you
Last summer (oh oh oh)
You cast a spell you put me under (oh oh oh)
There's something about the way you look
It's taking me over
And now I know I wont forget
When we met last summer

Now a year has passed
And things have changed
Your popular
And it makes me feel degraded
And it hurts me so
I talk to you, you don't wanna know
Now all I ever think about is
Last summer (oh oh oh)
You cast a spell you put me under (oh oh oh)
There's something about the way you look
It's taking me over
And now I know I wont forget
When we met last summer
