

Shut Up Already

NOFX

Shut up Affection not dissection, meat is murder
Animals are for petting, oh shut the fuck up already
Tired of you whining about poor animals dying
And the food they are supplying
Because if a big animal had the chance
It wouldn't take another glance it would eat you up Right
Shut up, no Affection not dissection, meat is murder
Animals are for petting, shut your trap already
I don't want to listen and I'm tired of your bitchin'
About what's in my kitchen
Because if a big animal had the chance
It wouldn't take another, it will eat you up I hate your flow
Is it the way you move?
You really go, when you really go
