

# My Baby Does Me

## Queen

Turn it up a bit please My baby  
Baby does  
My baby does, me good  
My baby does  
My baby does me  
My baby does me good My lady  
Understands  
Understands me right She understands me  
She understands me  
Understands me right  
Mmmmmmm My baby cares  
She really cares  
She knows what's really right for me  
Does me good then she hurts me so  
She winds me up then lets me go  
Turns me on and then tells me no  
She's just a pussy cat My baby loves me  
My baby loves me (ooh)  
My baby cuffs me (ooh)  
One day she'll tell me that she cares  
Another day she tells me she don't love me  
She really really does me  
Ooh, people do you believe this ?, do you ?  
Oo ooh, ah  
Ooh ooh ooh  
Ooh she really really really really really really aah, does me, hey
