

Tyranny Of Normality

Papa Roach

The media is the seduction of human desire
(Set their money, set their money on fire)
And if you try to show me the truth
Then I know you're a liar, a liar It's the tyranny of normality
It's the tyranny of normality Our culture has become complacent and has no desire
(Take back, take back our empire)
And the ethical slaughter of truth
Needs to be retired, retired It's the tyranny of normality
It's the tyranny of normality It's the death of outrage
I want to turn a new page
I mourn the death of outrage
The obituary's on the front page Since the death of outrage
I want to turn a new page
I'll mourn the death of outrage
The obituary's on the front page It's the death of outrage
I mourn the death of outrage
The obituary's on the front page It's the tyranny of normality
It's the tyranny of normality
It's the tyranny of normality
