Trump Face
Written By Kizuluh DuReli

Ima post up
Ima post up
ima post up with my Trump face (hah...)

(Uh Trump Face)
(Kanye a running mate'?: "I don't know about that dude")

Verse 1:

When these sissies actin' out
And these bitches bein' fake -
You know that I'm about to do my 'Trump Face'
Peep game I say a line now they gather in line
Check the box by my name and make a 'Trump Face'
Pouty in the lips you already know the swagger
I'm 'bout to party with my bitches up in the air
First Class honey, "that's funny"
I'll buy this jet sell tickets and get more money
I have my own tower you're paid by the hour
Go bake me some bread with some fresh flour
Bring me a fresh drink "Ok sweetheart?" (Trump Face...!)
Listen you did a good job with the drink, honey
Problem is you need to stop and think
Do I have a 401K enough investments and bail bonds ("Trump Face")
It's not my fault but if it was up to me?
You'd make minimum wage, now take this luggage
I'm 'bout to drink this tangeray
I-ha I-have nothing left to say to you
Tell my pilot to stop at my private island or-
You- Why should I pay you?
(SPM Come back free SPM)
(Talking: Now the beauty of this look is you must...
punctuate the lips... in such a way that... ah...
You know, they - they protrude from the facial region

And uh... Portray... to others, that you... are amused by their incompetence and that you think - you know - that they're idiots. And that, and that (I can't!), and if not idiots then well you have a solution. You know something

they don't.

Hook:

You know stop pretending
Wrinkles on my cheeks sends the whole party running
(Trump Face!) Any party I'm running
Your attraction is plungin'
Posted with my 'Trump Face' I'm comin' - money
(X2)

Verse 2:

These chicks gonna gimme cause they see me shimmy shimmy
Finna play me 'cause I'm winning - Try again!
I caught you red and I'm about to do my 'Trump Face' again
These politicians a disgrace frankly they're all last place
Surge in popularity 'cause liberals are scary
They're not progressive like me
They don't even try to be
I'll build I'll destroy and I'll completely annoy
Clinton and Bush, Jane and Elroy, Oh boy!
Look, if you really wanna dispute that with me
Check the records and books
Can't tell me my opponents could do it any better
Competition is good it keeps us strong
So rise to the challenge I know we've gotten it all wrong for too long
(Cue 'Trump Face')
They haven't got a chance they gave up like France
And screw all the new rappers with their fancy pants
I can't I would sign a bill make it real
We'll need to take it slow paint the White House orange
But it's run by convicts instead
Why'd I even get outa bed?
What a kick in the stinkin' head
(Talking: Sometimes you may have a strong opinion but...)
I'ma post up
I'ma post up with my 'Trump Face'
I'ma post up with my 'Trump Face'
I win you lose
I win you lose
I'ma post up
I'ma post up
I'ma post up with my 'Trump Face'

(Hah...)

Talking: Now take a good strong look. Trump Face. Now it's not exclusive to Trump. But, in the year 2015 he was iconic, in the sense... That he riled up the Republicans, or whatever.

You know stop pretending
Wrinkles on my cheeks sends the whole party running
(Trump Face!) Any party I'm running
Your attraction is plungin'
Posted with my 'Trump Face' I'm comin' - money
(X2)

Sissies actin out
bitches lookin' fake
You know that I'm about...
You know that I'm about...
You know what I'm about (hah)

I'ma about to do my 'Trump Face'
I'ma about to do my 'Trump Face'

Trump Face...! Speak the words I can't...
