No Higher Place

Sierra

When I lose myself
In sweet communion
I can hear Your voice
Wherever I amWhile I'm on this earth
So far from heaven
No matter where I'm standing
When my heart is in your handsThere is no higher place
There is no higher place
There is no higher place
Under this skyThere is no higher place
(When I feel You near me)
No higher place
(Nothing else compares)
No higher place
Under this skyWhen I give myself
To You completely
I can close my eyes
And see what You seeThen I understand
How much You love me
And I know when I'm beside You
Just as close as I can beThere is no higher place
There is no higher place
There is no higher place
Under this skyThere is no higher place
(When I feel You near me)
No higher place
(Nothing else compares)
No higher place
Under this skyWhen my strength is low
(Strength is low)
You call to me
You let me know
When I'm on my kneesThere is no higher place
(When I feel You near me)
There is no higher place
(Nothing else compares)
There is no higher place
Under this skyThere is no higher place
(When I feel You near me)

No higher place
(Nothing else compares)
No higher place
Under this sky(When I feel You near me)
There is no higher place
(Nothing else compares)
There is no higher place
Under this skyThere is no higher place
(When I feel You near me)
No higher place
(Nothing else compares)
No higher place
Under this sky
