The Best of Everything

Johnny Mathis

We've proven romance is still
The best of everything
That sudden thrill
The best of everythingThat one little sigh is treasure
You cannot buy or measure
By any test
The best of everythingYou found the moon and the sun
Yes, he is the one, it seems
But soon it's done
And not the fun it seemsYou walk through the night just groping
It's still alright, you're hoping
Love can be all or nothing
But even when its nothing
