

# When the Day Comes

[Eric Krasno](#)

When the day comes when you'll go  
I'll always know you by heart  
When all the lights have burned out  
I know you're there in the dark  
I'll always know you by heart  
When the day will comeSame with the silver and gold  
Is nothing left, forward move on  
You are the light of  
My fort on the senses  
If love is right, they they are wrong  
When the day comes when you'll go  
I'll always know you by heart  
Taste of your brand new sweet tenderness  
I'll know you're there in the dark  
I'll always know you by heart  
When the day will comeAin't no sense in believing forever  
What has ended a long long time ago  
Can't [?]  
Is more than awhile  
Leaving me something I know  
When the day comes when you'll go  
I'll always know you by heart  
When all the lights have burned out  
I know you're there in the dark  
I'll always know you by heart  
When the day will come
