Dreams That I Carry

Jon Secada

Mesmerizing point of view, hypnotic conversations
Contemplative swinging moods, drew me to you
Never mattered when or where, who you'd been with
The color of your hair, baby, I always caredBut you couldn't see inside of me
You didn't notice my intentions
Nothing but dreams is all that I carry, oh
Is all that I carry with meCynical attitudes, the center of attention
I wonder if you understood you could've changed my life
Focusing my energy, setting expectations
Trying to convince myself, she loves meA little look here, a little smile there
Moments and memories that we've shared
Roses and things, silly it seems is all that I carry
Dreams that I carry, dreams that I carry with me
Dreams that I carry, dreams that I carry with meWe had no chance, never made plans
So many things slipped through our hands
Don't wanna look back, too late to look back
I gotta get her off my mindI got no more dreams, it's over for me
Our dreams all I carry, dreams that I carry
Dreams that I carry, dreams that I carry with me
Dreams that I carry, carry, yeah
Dreams that I carry, dreams that I carry with me, baby
Dreams that I carry
