

Dreams That I Carry

[Jon Secada](#)

Mesmerizing point of view, hypnotic conversations
Contemplative swinging moods, drew me to you
Never mattered when or where, who you'd been with
The color of your hair, baby, I always cared
But you couldn't see inside of me
You didn't notice my intentions
Nothing but dreams is all that I carry, oh
Is all that I carry with me
Cynical attitudes, the center of attention
I wonder if you understood you could've changed my life
Focusing my energy, setting expectations
Trying to convince myself, she loves me
A little look here, a little smile there
Moments and memories that we've shared
Roses and things, silly it seems is all that I carry
Dreams that I carry, dreams that I carry with me
Dreams that I carry, dreams that I carry with me
We had no chance, never made plans
So many things slipped through our hands
Don't wanna look back, too late to look back
I gotta get her off my mind
I got no more dreams, it's over for me
Our dreams all I carry, dreams that I carry
Dreams that I carry, dreams that I carry with me
Dreams that I carry, carry, yeah
Dreams that I carry, dreams that I carry with me, baby
Dreams that I carry
