

# Let Me Out

## The Knack

one two three four let me out come and get me out 'cause i've been stuck in for too long  
let me out out come get me out baby maybe be where i belong  
the time is right for stepping out in the light  
my cup is full and i'll be pulling the wool tonight let me out come get me out you know that she don't understand  
let me out out come get me out baby i'm just living for the band  
it's getting tighter and i'm feeling the bite  
but i don't care because i'm getting my share tonight  
tonight tonight tonight whoo let me out come get me out i'm just a prisoner of your love  
let me out out come get me out baby i will never have enough  
i guess i'm getting while the getting is right  
she may be faking but i'm taking my chance tonight
