Still Hungry

Great White

Only fools rush in where angels fear to tread
Going to get my arse to heaven before the devil ever knows I'm dead
I spent the whole of my life searching for some peace of mind
But I found out the hard way it ain't so easy to find
Desperate times made a man out of me
Sometimes it's hard to see
Been and done living ten lives to one
Never scared to reach for the sun
Still hungry
And I'm giving my life to this fantasy
Still hungry
And I'm hungry for you are you hungry for me?
I got no money in my pocket and a long way to go
I got a heart full of dreams that keep a light in my soul
I got nothing but time but time's bearing down on me
Still I got no right complaining I'm still alive and free

Tragic times took their toll on my soul
And spun me out of control
Found the track now there's no turning back
Out of the red to the black
Still hungry
And I'm giving my life to this fantasy
Still hungry
And I'm hungry for you are you hungry for me?
Still hungry
And I'm giving my life to this fantasy
Still hungry
And I'm hungry for you are you hungry for me?
Still hungry
And I'm giving my life to this fantasy
Still hungry
And I'm hungry for you are you hungry for me?
Still hungry
