

# Symbiosis

## Desdemonia

Bipatrisan joining  
Synergy essential  
For the purpose of symbiosis  
When opposites merge  
Mutual benefits emerge  
If symbiosis is threatened  
Either may lose control  
The grafting of the branches  
Through the vows of marriage  
Interdependence relies  
On the covenant of trust

### CHORUS

Synapse a wondrous gift of God's creation  
Synchronous biogenesis the seed of expression  
Synapse a wondrous gift of God's creation  
Synchronous biogenesis the seed of expression  
Under a symposium  
Syllogistic settlements  
Banish the tear away  
Systole rising

### CHORUS
