

# Come to Milton Keynes

## The Style Council

May I walk you home tonight  
On this fine and lovely night tonight  
We'll walk past the luscious houses

Through rolling lawns and lovely flowersOur nice new town where the curtains are drawn  
Where hope is started and dreams can be borneLet us share our insanity

Go mad together in Community  
Boys on the corner looking for their supper

Boys 'round the green looking for some slaughterWe used to chase dreams, now we chase the dragon  
Mine is the semi with the Union Jack onIn our paradise lost we'll be finding our sanity

In this paradise found we'll be losing our way  
For a brave new dayMay I slash my wrists tonight?

This fine Conservative night  
I was looking for a job so I came to town

I easily adopt when the chips are downI read the ad about the private schemes

I liked the idea but now I'm not so Keyne[Incomprehensible]  
[Incomprehensible]  
God bless you all, God bless
