

# Trapped in Toyland

## Mr. Big

20 long years ridin' somebody's coattails  
Watching the vermin go by through a heavy coat of chain mail  
So ya wanna change the world but ya still can't decide it  
They can take away the cash but a fool's got his pride  
Everyone must kneel before the man  
The leader of the band  
Trapped in toyland 20 odd years since you heard revolution  
Feeding your fears with psychological pollution  
Everybody in the world tryin' to take you for a ride, yeah  
So you get behind the wheel just to realize you're blind  
Sycophants associates n' press men  
Read the upper hand  
Trapped in toyland, trapped in toyland  
Toyland, toyland, toyland, toyland  
Well, it seems like years since anybody  
knew your name  
And you're drownin' in your tears but it's all just the same  
And it seems such a waste for a man with such pride  
But it's obvious reality is eatin' at your insides  
Sycophants associates an' press men  
Read the upper hand  
Everyone must kneel before the man  
The leader of the band  
Trapped in toyland, trapped in toyland  
Trapped in toyland, trapped in toyland  
Trapped in toyland, trapped in toyland
